Story by Nobby Barnden, Sim McDermott & Daniel Tejnický. Art by Daniel Tejnický

Over at the MagNuChem container yard, large crates are being unloaded...

Suddenly, from the pitch black of the hold...

Thanks for the lift, Captain!

WOOSH!

Idiot!

Shut up! Did you hear that?

GRRRAAWWWGHH!

From deep within the ship's bowels come a series of deep, strange... quacking moos...

Oh SHIT!  
We are sooo fired...

Max's exit...

MOO-GH

MOO-GRRRAWWGH

GRRHH!

Had set the Cowguins free!

On the ship's bridge, the Captain looks on...

Damn Max!  
How did he...?

Shit shit  
shit shit shit  
SHIT!

Bosun,  
prepare my vehicle  
and organize a detail  
to round up my  
pets!

They must NOT  
be harmed!

Aye, Captain  
Magnusson!

So once again, Max and Screwie meet, and the serious business of battle resumes.

Hey Screwie!  
How do you reach  
the pedals?

Keep laughing,  
Max Damage.  
You're about to get  
BRAIN damage!

But Screwie  
has new, juicy  
tricks up his  
sleeve.

Hey I did you  
a big favour Lou.  
Think of how much  
you've saved on  
buying socks!

TURN!

Thrown clean out of the  
Eagle, Max finds himself  
in a somewhat vulnerable  
predicament...

Back at the docks, Hammy sets off, intending to take HIS revenge on Max!

WOOH!

WOO-DEE!

CRASH!

NOOO!  
My level's!

RECOVER!  
Recover!

ABORT!

CRASH!

That's  
what you  
get for  
messin'  
with our  
COWS!

Shirley finishes  
off the job.

SMASH!

By the power of  
Anvil Launcher!

Hey lil' brother,  
stay put.  
I'm coming  
to getcha!

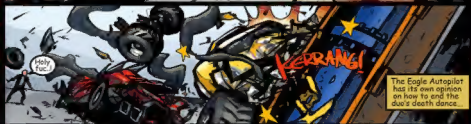

She motors  
off to rescue  
her halfwit  
sibling...

Back to Max... And it looks like it could all be over for our favourite anti-hero.

However...

The Eagle Autopilot has its own opinion on how to end the duo's death dance.

Ugh... Good gal Eagle...

Ouch.

Okay enough of this bullshit

Max slips the Repair Remote out of his pocket and aims it at The Eagle.

I'm outta here.

BECK!

A sudden flash of yellow.  
A sudden flash of agony!

Enter... The Hawk.

And Die Anna.

Hey Max.

Need a hand?

The End
